minhajul-bhuiyan.vercel.app | github.com/MinhajulBhuiyan | Dhaka, Bangladesh

Profile

Software Engineering graduate with hands-on experience in full-stack development, building web and mobile applications, and developing AI-powered solutions. Interested in creating practical, reliable software and solving real-world problems in fast-paced team environments.

Technical Skills

Languages	Python, C/C++, Java, C#, JavaScript, TypeScript
Frameworks	Flask, Node.js, Express.js, React, React Native, Next.js, .NET, Tailwind CSS
Databases	MySQL, PostgreSQL, MongoDB, Neo4j, Firebase
Developer Tools	Git, GitHub, Docker, Postman, Selenium, Jira, Figma, Alloy
Hosting & Deployment	Vercel, Render, Microsoft Azure
ML & AI	PyTorch, TensorFlow, Keras, scikit-learn, NumPy, Hugging Face, LLMs, RAG

Professional Experience

DATA Limited (Golden Group) — *Dhaka, Bangladesh*
Research & Development Intern — *Oct 2025 – Feb 2026*

- Contributed to AI-based internal tools that help business users access and analyze company data.
- Developed features for internal applications and explored computer vision solutions for workplace safety.

Selected Projects

DataSense – Natural Language to SQL System — **Mar 2026**
Next.js, React, TypeScript, Tailwind CSS, Flask, MySQL, Ollama — Repository

- Built a web app where a local LLM turns plain-English questions into SQL, with read-only validation.
- Added conversational follow-ups, query history, interactive charts and CSV/Excel export.

DocSchedule – Doctor Appointment Booking System — **Aug 2025**
MongoDB, Express.js, React, Node.js, Tailwind CSS, Cloudinary — Repository Live

- Built a full-stack booking platform with separate patient, doctor and admin interfaces.
- Implemented JWT-based authentication, role-specific dashboards and image uploads.

LinkUp – Real-Time Mobile Chat Application — **Jul 2025**
React Native, Expo, Firebase (Auth, Firestore, Storage), React Navigation, Gifted Chat — Repository

- Developed a cross-platform mobile app supporting real-time messaging, media sharing and emojis.
- Implemented chat search, group management, password changes and online-status privacy across the interface.

Federated Learning for Agile Story Point Estimation — **B.Sc. Thesis**
Python, PyTorch, CodeBERT, LoRA, Federated Learning — Paper PDF

- Developed a machine learning system to estimate the effort required for Agile software tasks, allowing multiple projects to train a shared model without sharing private data.
- Evaluated on 18 projects and 31,948 issues, improving prediction accuracy from 27.3% to 37.2% while reducing communication overhead by 99.8%.

Education

Islamic University of Technology (IUT) — *Gazipur, Bangladesh*
B.Sc. in Software Engineering, Department of Computer Science and Engineering — *2022 – 2026*

- CGPA: 3.82/4.00

Notre Dame College — *Dhaka, Bangladesh*
Higher Secondary Certificate (HSC), Science — *2020*

- GPA: 5.00/5.00

Languages

Bangla – Native proficiency **English** – Advanced proficiency (C1) — IELTS Academic: 7.0
